### PTT goes cashless with QR Code

PTT Gas station, with the use of CCTV recording device, has succeeded in developing a cashless policy through Dynamic QR Code scanning system. It is now on trial at the PTT gas station (close to the Office of the Permanent Secretary for Defence) on Bangna Trat Road (outbound), according to Jiraphon Kawswat, Senior Executive Vice President, Oil Business Unit.

PTT has seen a steady expansion in E-payment amid technological advances and the PTT Speed Pay has been developed to serve the lifestyles of the new generation.

PTT also plans to expand its technological advance into the retail businesses this year. Furthermore, it will also expand the PTT Speed Pay system to other related technological devices such as e-Wallet, Radio Frequency Identification (RFID) and Image Processing to further serve consumer needs.
