ChargeNow partners –BMW Group Thailand, Polytechnology Co Ltd, Greenlots, Central Group, and AP (Thailand) Plc – have teamed up in expanding the ChargeNow network of public charging stations for electric vehicles and plug-in hybrids with new charging stations in Bangkok at CentralWorld, Gaysorn Village and SO Sofitel Bangkok.

The three new locations represent a continuation of the

programme following the launch of the first two locations at Crystal Design Center and Terminal 21 and a joint

810

effort to carry forward the commitment to drive the development and adoption of electric mobility in Thailand.

Christian Wiedmann, President of BMW Group Thailand, said the BMW Group Thailand and ChargeNow partners are committed to drive Thailand towards a full-fledged electric society. The company now plans to work closely with ChargeNow and its authorised BMW dealers to install 100 charging stations across the country to facilitate and simplify the charging process and eventually pave the way to a sustainable low-carbon environment. —
