ELECTRONICS**Delta takes part in EEI's
20th anniversary event**

38 Delta Electronics (Thailand) Plc recently joined other electronics companies operating in Thailand and the government and academics sectors at the Electrical and Electronics Institute (EEI)'s 20th anniversary event entitled "Driving Toward Standardisation and Innovation" at Bangpoo Industrial Estate.

Founded in 1998, the EEI offers quality services to ensure international standards and competitiveness in Thailand's electronics industry.

The EEI event presented a platform for Delta to showcase its EV charging solutions to drive auto electrification in Thailand, including the AC Mini Plus EV Charger and DC Wallbox Charger.

Kittisak Ngoengokngam, Delta's business director/Southeast Asia, demonstrated how Delta's EV charging can support emissions-free vehicles.

As a major electronics company of Thailand, Delta proactively supports the government's Thailand 4.0 policy. Delta's sustainable growth strategy has guided its transformation to a smart solutions provider of innovative, clean and energy-efficient solutions for a better tomorrow.
